TEST PROCEDURES

A recce of the Test will be on foot prior to the start at 08.00 am. It will be the competitors' responsibility to be present when the test is relayed via the recce.

The autotest will consist of a minimum of 4 loops / tests. This COULD be increased at the discretion of the Clerk of the Course (time & venue allowing)

- Competitors will be timed using a timekeeper's stopwatch and be instructed to start by being counted down 3, 2, 1, GO by the timekeeper.
- All lines and gates will be of a minimum width of 3.5m. Any 'garage' will have a minimum length of 6m and a minimum width of 3.5m. Where a competitor is required to perform a 180° turn in a box, the size of the box should be sufficient to contain a circle of 16m diameter.
- The start and finish of all tests will be in a forward direction. Each test will be designed so that a Competitor is not expected to engage reverse gear more than four times (ignoring manoeuvres to correct
- Each test will be run at least twice
- Drivers will be considered under Starter's orders when instructed by an Official to proceed to the start line. Drivers then failing to proceed may forfeit their run or may be penalised in accordance with Chapter 19 App. 9 (Penalty Table).
- A start will only be valid if made under the vehicle's own power.
- When a car is required to stop astride a line, the line must be between its front and back axles and all the area of the tyres in contact with the ground must be seen to have crossed the full width of the line. Similarly, if a car is required to cross a line with all four wheels, all tyre contact area must be seen to be clear of the line.
- Timing at completion of a test will be based on the leading wheels (on the same axle) crossing the finish line. Penalties will be applied for failure to cross the line, or alternatively, if timed to a flying finish, for crossing the baulk line. In the event of Competitors performing a test incorrectly, their times will still be recorded, together with the appropriate penalties.
- In any diagram illustrating a test, the dimensions will be approximate and for guidance only. Indications of the direction of travel of the competing cars when crossing a line, or passing between markers, will be shown unless specified otherwise (ignoring 'shunts' to avoid markers).
- A maximum penalty Chapter 19 App. 9 (Penalty Table) will be applied if a competitor crosses with both leading wheels a marked test line in the wrong direction, out of the prescribed sequence or too many/few times, otherwise competitors may correct their mistakes by returning to the point where they deviated from the test diagram.
- In changes of direction and spin turns, either lock can be used (unless the test diagram specifically states otherwise). It is recommended for safety reasons that Drivers are on the 'inside' during spin turns.
- Clerks of the Course wishing to define direction of travel between markers will include any necessary marked line(s) or arrow(s).

- In the event of re-run caused by a timing failure, the greater number of penalties incurred in either run will be added to the time taken in assessing the performance on that test.

PROVISIONAL RESULTS

Will be on the event Notice Board.

RESULTS

Results will be produced at the event noticeboard, Awards will be presented at the event venue.

To be classified as a finisher, Competitors must complete not less than half of the tests.

For each competitor their run incurring the highest penalty points will be discarded.

Competitors will start with zero marks. All Class awards must be calculated on the basis of penalty marks lost, with the Competitor incurring the least penalty points being judged the winner. In the event of a tie, the Competitor who was first to have the lesser penalty from the start will be adjudged the winner. Performance will be assessed as in Table 1, unless the 'Marks Lost' stated are modified by the SRs.

See Appendix 1, Table 1.

1 mark = 1 second

TABLE 1

		Marks Lost
A	Each minute late reporting at the start or re-start	5*
B	Not attempting or being ready to attempt a test when instructed to do so	40*
C	Not performing a test correctly other than (D) or (E) or not completing the test or making a false start	40*
D	Striking any barrier, wall or marker or crossing the boundary of a test (per mistake)	20
E	Failing to cross or stop at any line or specified position as required in a test (per mistake)	20
F	Every second (ignoring fractions) to complete test	1
G	Failure to complete the test	300

- plus the lowest by any competitor in the class making an attempt correctly on that run. The maximum penalty (including time) for any test cannot exceed penalty (B) or (C) above.

TIMING

The timing will be recorded by marshal's stop watches.

Timing is started by the starting signal, which will be in the form of a marshal's signal or flag.

MARKING

Judges will be appointed to each test to adjudicate on:

- False starts
- Crossing/failing to cross marker lines
- Touching markers and not following correct route.

Organizers will record times and penalties at the completion of each test run.

Marks will be lost for time taken (if applicable) and for any infringements of the test instructions, such as striking a marker or crossing a boundary line.

PROTESTS

Protests must be logged in accordance with Chapter 2 App 4.

DAMAGE

If a competitor causes damage to property during the event, the competitor is responsible for the damage and will be asked to contribute or in some cases cover the cost of the damage.
